Narrated by Actor
Benjamin Bratt

In this issue...

Sam Farrar  Masterpiece Classic  Juanes
Actor Benjamin Bratt narrates this landmark six-hour series, the first major television documentary series to chronicle the rich and varied history of Latinos, who have for the past 500-plus years helped shape what is today the United States and have become the country’s largest minority group. This series tells the story of early settlement, conquest and immigration; of tradition and reinvention; of anguish and celebration; and of the gradual construction of a new American identity from diverse sources that connects and empowers millions of people today. The series covers the 1500s to the present day.

→ Three part series airs Tuesdays from 8PM - 10PM beginning October 21st

History/Biography/Documentary

Rock N’ Roll Stories: Sam Farrar

The guest will be Sam Farrar, the bass player of the band Maroon 5. Sam started off as the bass player of Phantom Planet and wrote the song “California,” which became the soundtrack to the TV show “The O.C.” Since then, he’s co-written “Misery,” “Wake-up Call” and “Sunday Morning” for Maroon 5. Sam will discuss some of the artists including the Beatles that influence his music.

→ Airs Friday, October 18th at 10PM
Genealogy Roadshow

Follow a diverse cast of participants on an emotional journey that uses history and science to uncover their fascinating family stories. Each individual’s past will link to a larger community history, revealing the rich cultural tapestry of America. The programs feature participants from four American cities — Nashville, Austin, Detroit and San Francisco — who want to explore a genealogical mystery.

→ Four part series airs Mondays at 7PM beginning October 14th

Nature/Science/Adventure

Roadtrip Nation

Throughout eight inspiring episodes, season ten of Roadtrip Nation follows three Roadtrippers who seek to define their own roads in life. As they travel coast-to-coast in Roadtrip Nation’s Green RV, they speak with influential leaders who have built their lives around doing what they love. Jackie, a Ph.D. student, left her home in Mexico to earn a degree in chemistry from the University of Texas, El Paso. Megan, a recent graduate from Bucknell University, has longed to be an elementary teacher since she was a child, but is struggling to hold onto her dream in the face of a difficult job market. Zachariah, a geology student from Ohio State, seeks to channel his many interests into one cohesive path.

→ Airs weekly on Thursday at 10PM
NOVA: Ground Zero Supertower

NOVA returns to Ground Zero to witness the final chapter in an epic story of engineering, innovation, and the perseverance of the human spirit: the completion of One World Trade Center, the skyscraper rising up 104 stories and 1,776 feet from the site where the Twin Towers once stood. In this update of NOVA's "Engineering Ground Zero," which featured behind-the-scenes access to the struggles of the engineers and architects working at 1 WTC and the National September 11 Memorial and Museum, NOVA goes inside the construction of the new tower’s final floors and the installation of its soaring, 800-ton spire and beacon. But, 1 WTC isn’t the only engineering marvel taking shape here: NOVA goes underground to see the construction of a multi-billion dollar transit center whose sweeping, sinuous design is said to be inspired by the shape of a bird being released from a child’s hand. Will the buildings be completed on time under competing business, environmental, and safety demands? And will the final product be a fitting site for national remembrance?

→ Airs Sunday, October 20th at 6PM and Tuesday, October 22nd at 7PM

Nature: Saving Otter 501

On a typical late summer day a baby sea otter washes up on the beach in Monterey, California -- hungry, lost, injured. It’s a tragic event, but not surprising. California sea otters are struggling. For decades marine biologist Karl Mayer and his small staff have worked unceasingly—one otter at a time—to bring this “keystone” species back from the brink of extinction so it can play its important role in the local marine environment. But the effort has stalled, and no one knows why. This is the story of the Monterey Bay Aquarium’s 501st attempt to save an orphan otter. From her discovery as a stranded newborn pup crying on the beach through her rehabilitation in secret roof tanks atop the Aquarium, we follow as Otter 501 learns how to dive, hunt, eat, and fend for herself in the wild, where survival is a long shot at best.

→ Airs Sunday, October 27th at 5pm and Thursday, October 29th at 7PM
Austin City Limits - Juanes and Jesse & Joy

Austin City Limits presents the best in Latin music with Juanes and Jesse & Joy. Colombian superstar Juanes performs a high-energy set of his best, while Mexico City’s sibling duo Jesse & Joy sing a selection of their greatest hits.

→ Airs Friday, October 11th at 9PM

Masterpiece Classic: The Paradise

This adaptation of the beloved French novel by Emile Zola is a rags to riches story of a young woman seduced by the dangerous charms of the modern world. Set against the Victorian splendor of a British department store, “The Paradise” follows Denise Lovett who lands a job as a shop girl and finds herself facing a future filled with never-before-imagined opportunities.

→ Two part series airs Wednesdays at 7PM and Saturdays 11PM beginning October 16th
Between the Lines: Neil Druckmann & Bruce Straley
The Last of Us

*The Last of Us* is one of the most critically acclaimed video games for its story telling and visual design. Plus, it is filled with penetrating philosophical and sociological underpinnings that exceed some of the great works of literature and film.

→ **Airs Saturday, October 19th at 8PM and Wednesday, October 23rd at 9PM**
